PURIFIES

cause it becomes infected with impurities, humors or poisons, trouble in some form is sure to follow. Muddy, sallow complexions, eruptions, pimples, etc., show that the blood is infected with unhealthy humors which have changed it from a pure, fresh stream to a sour, acrid fluid, which forces out its impurities through the pores and glands of the skin. A very common evidence of bad blood is sores and ulcers, which break out on the flesh, often from a very insignificant bruise, or even scratch or abrasion. If the blood was healthy the place would heal at once; but being infected with impurities which are discharged into the wound, irritation and inflammation are set up, the fibres and tissues are broken, and the sore continues until the blood is purified of the cause. S.S.S. is Nature's blood-purifier and tonic, made entirely from roots, herbs and barks. It goes down into the circulation and removes every particle of impurity, humor or poison, restores lost vitality and steadily tones up the entire system. S. S. neutralizes any excess of acid in the blood, making it pure, fresh and healthy, and permanently cures Eczema, Acne, Tetter, Salt Rheum, Boils, and all other skin cruption or disease. Book on the blood and any medical advice free.

A Storehouse of Wealth

Is a Home of Health

It often happens that your wife is over-worked and you don't know it until she commences to complain of lost appetite, lame back, etc., and at last gives up and the Doctor is called, and then you rush out to secure help for the same work she did. At last, after a rest, she recovers, and you take a personal pride that you did your part in having her health restored, but you overlooked the day in and day out never-ending toil of preparing the meals over the hot coal stove and over-heated kitchen.

The nerve racking tension and patience required to carry on this domestic home service is rarely comprehended and seldom realized by his Royal Highness. If husbands had to do the cooking for thirty days, we could not begin to supply the demand for gas stoves. Why not figure that your wife's health is all in all to her and you; one year's rest cooking with gas will restore her former youth and beauty. It you try it, you will be overjoyed to learn that this is no fairy story.

PRETENDER TO THE SPANISH THRONE WILL NOT INTERFERE

"The Carlists party is a party of order," said Don Jaime. "I never will take upon myself to instigate an entire revolution for my own ends. Never will I lead Spaniard against Spaniard. Should I return to Spain at the head of an army, it will be only to restore order. This might happen should the revolutionists drive out King Alfonso, or if the welfare of the country requires it. The popularity of King Alfonso is declining through no fault of his own, and Queen Victoria is less liked than the king.
